

Excavator Cab Guard (FOPS)

Cab guards protect the cab and operator from falling objects and debris.

HNL cab guards are one of the strongest in the industry, utilizing larger tubing and top cab protection.

Standard Features

- HD 4" x 3" x 1/4" heavy walled tubing
- Hinged escape/sunroof hatch
- Front and rear light bars
- Hinged front 6" screen
- Front outside post mounted to allow visibility to the corner of tracks
- Handrail
- Grade 8 mounting hardware

Options

- Front mounting brackets (when cat walks not installed)
- 2" wire or Lexan hinged front screen
- 2" wire or Lexan hinged/bolt-on rear screen
- Rubber mounts (to lower vibration)
- Front window horizontal slats

**Specifications subject to change without notice.*

***Machine or guarding items may require minor alterations during install.*
